How to get Early Tomatoes .- A good large turnip is far better than any hot-bed for propagating early tomatoes. Cut off the top, and out a shell three-quarters of an inch thick. Fil the cavity with a rich mould, plant a half a dozen seeds, and place the turnip in a box of loam. INDIANA STATESMEN.-Mr. Sutherland has laid on our table a copy of his new work-Biographical sketches of the members of the General Assembly, and of the officers thereof, together with CENTER TOWNSHIP DEMOCRATIC the State officers. It is a very interesting work. Biographies always have a charm for the reader, and as this work gives adsimple narrative of the rise to influence and position of nearly two hundred men who have passed the winter in our midst, it passesses a peculiar interest to the citizens of Indianapolis. It is well written, and we honestly believe that as much has been made out of the material as could be expected, and we cordially recommend it. It should have a place on the shelves of every library in the State.

PENNSYLVANIA STREET.-We learn that a number of first class business houses are designed to be erected on the above street in view of the in-26.5 creased importance that will be given the same by the removal of the postoffice and United States 28.3 Courts to the building provided by the Government in that locality. Most of the property is 40.5 owned by those who will erect improvements that will be a credit to the city and will send much to advance property in the neighborhood. The lot formerly occupied by Wm. Woods as a livery and sale stable, and which we notice is to be sold on Tuesday, April 2d, by Wiley, Real Estate throughout Indiana, without reference to party Auctioneer, offers a fine chance for some one to invest in good property.

His remedies are only those which nature has so bountifully provided us with. In the treatment of disease he rejects the use of all poisonous drugs and minerals. Instead of enfecbling the system he invigorates, that nature may be able to expel the disease. It is to the knowledge of those great secrets that he owes his success; and relieved a vast amount of pain and suffering from Headache, whether originating in the nervous system or and in using which he defies all the Medical Faculty on the Continent to compete with him. All those who are suffering from Lung Biseases of whatever nature, are particularly desired to call, as one-half of the cases of consumption that are pronounced incurable by the Medical Faculty, and considered hopeless, are readily cured, and yield at once to his mild plan of treatment, from the very fact that not one physician in twenty have the proper instruments for examining the lungs, and those who have, are very few of them capable of judging the amount or kind of disease to which the lung is subject. He has cured hundreds upon hundreds of such patients, who had been given up by other practitioners to alle from a deranged state of the stomach.
